

Project Engineer

For one of our customers in the Zeeland province we are in search for a **Project Engineer**

Job description

The Project engineer is responsible for design related tasks of masts, booms, rigging and parts and actively supervises the design in the production stage.

- ✓ Produce design as required to meet the Design Office and Production schedules
- ✓ Work to company standard procedures & policies, to ensure your design output is of the required quality & accuracy
- ✓ Work with other departments to assist their efforts to meet planned & unplanned task deadlines
- ✓ Work with all staff in establishing and maintaining a satisfying and productive work environment for all Design Office staff
- ✓ Adhere to the companies H & S policy and ensure the appropriate procedures & standards are being followed by all Stream members

Design Operations

- ✓ Complete design, drafting & checking tasks under the supervision of Team Lead Engineering, Senior designers & Design Engineers
- ✓ Provide support to other departments as required
- ✓ Maintain an understanding of your teams' output requirements (planned & unplanned)
- ✓ Manage your own workload & monitor own time keeping through communications with Team Lead Engineering and Project Manager running the project
- ✓ Follow checking & design procedures, including completion of all QC documentation as required
- ✓ Report & correct errors as required and proactively contribute in developing procedures to eliminate repeats
- ✓ Proactively monitor jobs and suggest cost/time saving improvements where possible

Risk and Compliance

- ✓ Health & Safety - Ensures compliance with health and safety requirements and actively promotes a safe culture
- ✓ Complies with Health and Safety policies and procedures at all times

Other duties

- ✓ As required and that are in line with the position

Your qualifications

- ✓ MBO level or bachelor
- ✓ Experience in shipbuilding industry
- ✓ Technical background in composite design/production
- ✓ Autocad / Solidworks or similar software
- ✓ Mechanical and structural design experience

- ✓ MS office incl. Excel
- ✓ Fluent in English and preferably Dutch or willing to learn
