

## **Team Lead Outfitting**

For a company in Vlissingen area, we are looking for a **Team Lead Outfitting**.

## Vacature omschrijving

- ✓ As a Team Lead Outfitting, your key responsibilities will include:
- Leading an outfitting engineering team during the basic and detailed engineering phases of shipbuilding projects.
- Overseeing the detailed engineering of outsourced packages, ensuring compliance with quality and regulatory standards.
- ✓ Advising on work breakdown structures and effectively allocating man-hour budgets.
- ✓ Delivering high-quality engineering work on time, meeting project requirements.
- ✓ Supervising engineering team activities within 2D and 3D environments, such as Cadmatic or Catia.
- ✓ Integrating vendor and subcontractor information, performing technical analysis on offers, and supporting design checks and reviews.
- Monitoring and controlling man-hours spent and providing progress reports to the Project Manager Engineering.
- Ensuring compliance with all applicable regulatory requirements and specifications.
- Contributing to the department's development by developing and describing standards and working methods.

## Je profiel

- Bachelor's degree in a relevant field combined with at least five years of experience in outfitting systems engineering.
- Proficiency in 2D and 3D systems, preferably Cadmatic or Catia, with experience in ships or offshore installations.
- Experience in leading mid-size engineering teams of up to ten people and structuring work packages effectively.
- Knowledge of class and statutory rules and regulations such as SOLAS, Lloyds Register, and DNV.
- Experience in working with vendors, subcontractors, and Good Engineering Practices, with a strong focus on quality and budget awareness.
- ✓ Proficiency in Dutch, German, and English languages, both written and verbal.
- ✓ Strong references, as pre-employment security screening is standard.
- ✓ Permanent EU citizenship and passport are required.
