

Business Process Specialist

For a company in "Zeeuws-Vlaanderen", we are looking for a **Business Process Specialist**

Vacature omschrijving

The **Business Process Specialist** will be responsible for all work processes on the purchasing department i.e. for detailed specification, design, testing, functionality and implementation in the internal systems.

The Business Process Specialist will be accountable for:

- ✓ Identify, define, and document detailed work process and system requirements, use cases, and process definitions
- ✓ Analyze and design/re-design business processes
- ✓ Establish co-ownership of the requirements and use cases with the Application SMEs to ensure a complete understanding of the requirements and confirming the final solution
- ✓ Participate in system development and build activities such as reviewing design documentation, executing product test and user acceptance testing, conducting training, and assisting with implementation support
- ✓ Ensure integrated, 'Workable' solutions that meet the functional needs
- ✓ Ensure functional requirements are fulfilled
- ✓ Drive cross functional and program management alignment
- ✓ Identify opportunity for process simplification by evaluating requirements against "out of the box" capabilities
- ✓ Participate in user and task analysis to maintain the business community's perspective
- ✓ Ensure solution meets business objectives
- ✓ Ensure Documentation and training development are complete and accurate
- ✓ Take ownership and escalate issues to ensure on-time delivery

Je profiel

- ✓ Bachelor level
- ✓ Knowledge in purchasing/procurement processes
- ✓ Minimum of 5 years experience as process specialist.
- ✓ Ability to build and foster relationships across businesses and functions
- ✓ Deep knowledge in respective business process, with cross-business process knowledge
- ✓ Experience with Word, Excel, Powerpoint is must
- ✓ English speaking
- ✓ Teamworker
- ✓ Pro active
