

EH&S Technician

For our client in the province Zeeland we are searching for a **EH&S Technician**

Vacature omschrijving

We are looking for an EH&S technician for a long term assignment to support the safe execution of work coordinated by the TES maintenance department.

We are looking for a team player who is used to show initiative and ownership, is capable of dealing with a dynamic environment and has experience in the chemical industry.

Responsibilities / Duties

- ✓ Provides hands-on environmental, industrial hygiene (IH), and health and safety (H&S) activities for a specific maintenance group in preparation and execution of work.
- ✓ Shares responsibility for the implementation of the EH&S management system, in order to meet business objectives and to maintain the license to operate.
- ✓ Implements detailed, task level, day to day EH&S programs, utilizing the EH&S work process, standards and procedures.
- ✓ Ensures that the Environmental, IH, and Health and Safety aspects of operating discipline are adequate and applied to achieve EH&S performance goals. In most cases, would perform the role of section owner for the EH&S sections of operating discipline.
- ✓ Acts as resource for related EH&S information on procedures, guidelines and standards.
- ✓ Serves as contact for Environmental, IH, and Health and Safety issues.
- ✓ Coaches and trains teams and individuals within maintenance on EH&S related tasks and activities.
- ✓ Assists in developing and achieving area or departmental EH&S goals.
- ✓ Ensures EH&S compliance tasks are completed.

Je profiel

- ✓ Completion of MBO4+ degree in combination with an EH&S degree like MVK, OVK or equivalent.
- ✓ Experience in similar roles within the chemical industry.
- ✓ Fluent in English and Dutch.
- ✓ Personal characteristics: shows initiative, ownership and is a teamplayer.
