

QA/QC Supervisor

For our client in Antwerp we are hiring a **QA/QC Supervisor**.

Vacature omschrijving

The QA/QC Supervisor will act as an extension of the Quality Assurance Manager in the field, performing regular spot checks and overseeing the daily quality control activities during construction, executing observations, inspections and witness of activities.

The role demands a hands-on approach to ensure that the EPCM contractor's work complies with the project's quality standards and procedures.

- ✓ Conduct on-site inspections and spot checks to verify the quality of the construction work performed by the EPCM contractor.
- ✓ Enforce the project's quality control procedures and standards as established by the Quality Assurance Manager.
- ✓ Report any quality issues or deviations to the Quality Assurance Manager and assist in corrective action plans.
- ✓ Review the EPCM contractor's field quality documents, including inspection reports, test results, and certification records for compliance.
- ✓ Coördinate with construction supervisors to ensure quality workmanship and adherence to project specifications.
- ✓ Assist the Quality Assurance Manager in reviewing and approving the EPCM contractor's quality documentation.
- ✓ Support the QA team in conducting audits and reviews of the quality management system.
- ✓ Train and guide on-site personnel regarding the project's quality expectations and inspection practices.
- ✓ Maintain and compile comprehensive quality control records and documentation for project archives.

Je profiel

- ✓ Degree or diploma in Engineering, Construction Management, or a related technical field.
- ✓ Proven field experience (more than 10 years is preferred) in QA/QC roles within the construction industry, ideally on large-scale projects.
- ✓ In-depth knowledge of quality standards, methodologies, and regulatory compliance relevant to the Belgian construction industry.
- ✓ Exceptional observational skills, with a keen eye for detail and a commitment to quality.
- ✓ Strong interpersonal skills with the ability to work seamlessly with diverse teams and effectively manage stakeholder relationships on-site.
- ✓ Ability to communicate effectively with on-site teams and provide clear, concise reports to management.
- ✓ Certification in Quality Control or Quality Assurance from a recognized institution is preferred.
- ✓ Knowledge of the local language (Dutch) and English is essential.
- ✓ Valid VCA certificate.
