

## Run Plant Engineer

For one of our customers we are in search for a **Run Plant Engineer**

### Vacature omschrijving

As Run Plant Engineer, you will be taking the lead and closely cooperating with process operators, activity coordinator, quality coordinator, process automation engineer and maintenance team to operate the plant safely, according to planning, at low cost resulting in in-specification production.

Key Responsibilities:

- ✓ You will be responsible for daily operations in the plant.
- ✓ You will coordinate the plant activities with focus on EH&S, Quality, Asset Performance and Costs.
- ✓ You will support facility operations, EH&S actions, and corrective actions and initiatives.
- ✓ You will participate in risk analysis like LOPA and LPP.
- ✓ You will participate in projects and Tech Center activities.
- ✓ You will act, on a regular basis, as representative of the Department Leader in a 24/7 'on-call' schedule.

### Je profiel

- ✓ Master's or Bachelor's degree in (Chemical) Engineering or applied Science.
- ✓ Spoken and written fluency in English and Dutch is mandatory.
