

## Site Logistics Improvement Engineer

For one of our customers we are in search for a **Site Logistics Improvement Engineer**

### Vacature omschrijving

The Site Logistics team is responsible for all logistics activities for the Plastics and Latex factories at the chemical complex. This includes all loading, unloading and storage activities that are also carried out by our logistics partners.

Within this team there is room for an Improvement Engineer who focuses specifically on optimizing the internal and external (work) processes with the logistics partners and carrying out improvement projects in the infrastructure. The Site Logistics Engineer reports to the Site Logistics Leader.

#### Responsibilities / Activities

- ✓ Setting up data files for analysis of the occupancy rate of its own site logistics facilities.
- ✓ Exchanging site logistics ideas and work processes with other locations in Europe.
- ✓ Getting involved in the event of structural problems or bottlenecks in the cooperation or implementation of site logistics operations with the external logistics partner.
- ✓ Developing innovations that should lead to improvements in the logistics, operational and relevant administrative processes.
- ✓ Performing failure or problem analyzes with structured root cause analyzes or 6 Sigma methods.
- ✓ Providing periodic management reports regarding stock and process quality.
- ✓ Contributing to the setting up, implementation and monitoring of Key Performance Indicators (KPIs) of the logistics partners.
- ✓ Contacting and advising all levels within the organization regarding improvement and innovation proposals in the field of cost reduction, improving safety and environmental performance, including avoiding plastic granules in the environment.
- ✓ Leading the meetings with external logistics partners.

### Je profiel

Job requirements:

- ✓ In possession of a Bachelor or Master in a technical or logistics direction.
- ✓ Several years of experience and knowledge in the field of site logistics and/or project management.
- ✓ A good command of the English language.
- ✓ Good knowledge and experience with Microsoft Office applications (Outlook, Excel!!, Word) and ERP software (SAP).
- ✓ Flexibility to look at new ideas from the outside and give them a chance to implement.
- ✓ Good social skills and a good team player.
- ✓ High degree of independence and initiative.
- ✓ Representative attitude to contractor firms and external companies.

### Wat bieden we

Exciting job within logistics!! Possibility for a direct contract at our customer.
