

Supervisor Instrumentation

For our client in Antwerp we are hiring a **Supervisor Instrumentation**.

Vacature omschrijving

As Construction Supervisor Instrumentation, you'll supervise and monitor the quality, safety and progress of work on the construction site related to installation of Instrumentation.

Your other duties include:

- ✓ Monitoring the progress and scope of contractor work and identifying delays.
- ✓ Checking, monitoring and correcting work performed by the contractor.
- ✓ Overseeing compliance with QHSE aspects on site and reporting and correcting unsafe situations.
- ✓ Report on current status of work to the Construction Manager.
- ✓ Monitor additional work and report on this to the Construction Manager.

Je profiel

- ✓ At least 5 years of relevant experience as Construction Supervisor on large construction projects within the petrochemical industry.
- ✓ Extensive practical experience in installation of Instrumentations.
- ✓ A good command of both the Dutch and English languages, both verbally and in writing.
